Billy Remsen
SOFTWARE ENGINEER

(516) 587-9129   wcremsen@gmail.com   Portfolio   Github   LinkedIn

SKILLS

Languages: Javascript, Ruby, SQL, HTML, CSS
Frameworks: React, Redux, AWS, PostgreSQL, Express, MongoDB, Express, Node.js, Canvas, Chart.js
Key Skills: Pair Programming, Object Oriented Programming (OOP), Test Driven Development (TDD)

PROJECTS

Ets-two (React, Javascript, Ruby, Rails, PostgreSQL)   live | github
Etsy clone built with Rails backend and React frontend
- Developed custom user authentication utilizing BCrypt hashing function on backend combined with React auth routes on front end to prevent storage of passwords and ensure user specific functionality
- Structured PostgreSQL database on backend to ensure proper data storage, allowing users to interact with core features including browsing products and creating / updating reviews
- Stylized React components and populated site with AI generated products / images stored with AWS to improve user experience

Echo (MERN Stack - MongDB, Express, React, Node.js)   live | github
Voice note sharing application built utilizing MERN stack
- Worked with two other engineers on a shared codebase to build application from scratch in less than two weeks utilizing git feature branch to ensure proper workflow
- Utilized WaveSurfer.js (open-source audio visualization library) to create visually enticing and engaging recordings which allowed for user generated audio clips to be distinguished from one another, improving overall user experience

Cosmic Classes (Javascript, HTML/CSS)   live | github
Data Visualization of different classes of stars built with pure vanilla JS
- Utilized Stars API to fetch information and show various characteristics of stars by plugging into Chart.Js library to dynamically build charts and graphs displaying key data points

EXPERIENCE

The Tayler Group, New York, NY
Executive Search Consultant   Oct 2021 - Mar 2023
